Volume 412

Opinion

European Directives, Irish lakes and the slow decline of the singing canaries
by Ken Irvine 1–4

Rapid recovery of a shallow hypertrophic lake following sewage effluent diversion: lack of chemical resilience
by M. Beklioglu, L. Carvalho & B. Moss 5–15

Spatial variability in Mussels used to assess base level nitrogen isotope ratio in freshwater ecosystems
by R. A. McKinney, J. L. Lake, M. Allen & S. Ryba 17–24

On the presence of *Chirocephalus croaticus* (Steuer, 1899) in an intermittent lake in SW Slovenia
by Anton Brancelj & Nataša Gorjanc 25–34

Oligochaete community of alluvial Upper Paraná River, Brazil: spatial and temporal distribution (1987–1988)
by Alice Michiyo Takeda 35–42

Feeding habit of *Notoperla archiplatae* (Plecoptera) larvae in a North Patagonia Andean stream, Argentina
by Verónica Díaz Villanueva & Ricardo Javier Albariño 43–52

Import, mortality and accumulation of coastal phytoplankton in a partially mixed estuary (Kinsale harbour, Ireland)
by Koenraad Muylaert & Robin Raine 53–65

Epiphytic patterns of macroalgal assemblages on *Cystoseira* species (Fucales, Phaeophyta) in the east coast of Attica (Aegean Sea, Greece)
by M. R. Belegratis, I. Bitis, A. Economou-Amilli & J. A. Ott 67–80

Seasonal succession of phytoplankton and zooplankton along a trophic gradient in a eutrophic lake – implications for food web management
by Petra Tallberg, Jukka Horppila, Anu Väisänen & Leena Nurminen 81–94

New records of rotifers from Nakhon Ratchasima province, northeast Thailand, with a description of *Lecane baimaii* n. sp.
by La-orsri Sanoamuang & Sukonthip Savatenalinton 95–101

Effect of conditioned media on the asexual reproduction of the monogonont rotifer *Brachionus plicatilis* O. F. Müller
by Tatsuki Yoshinaga, Atsushi Hagiwara & Katsumi Tsukamoto 103–110
Some observations on the diet of the backswimmer, *Anisops wakefieldi* (Hemiptera: Notonectidae)
by John J. Gilbert & Carolyn W. Burns 111–118
A preliminary report on the application of *Macrobrachium amazonicum* Heller, 1862 (Decapoda: Palaemonidae) as a biomarker
by Robert Anthony Coler, Takako Watanabe, Bruno Freitas Xavier & Ronilson José Paz 119–121
Physical determinants of richness, diversity, evenness and abundance in natural aquatic microcosms
by Thomas W. Therriault & Jurek Kolasa 123–130
Revision of *Promonotus* Beklemischev, 1927 (Platyhelminthes: Proseriata), with description of two new species from the Mediterranean
by Paul M. Martens & Marco Curini-Galletti 131–142
A new species of *Cletocamptus* Schmankewitsch 1875 (Copepoda; Harpacticoida) from a mangrove forest in Malaysia
by J. Michael Gee 143–153
Experimental effects of temperature and prey assemblage on growth and lipid accumulation by *Mysis relicta* loven
by Dale W. Chess & Jack A. Stanford 155–164
Two new species of the *Diacyclops languidoides*-group (Copepoda, Cyclopoida) from groundwaters of Austria
by Peter Pospisil & Fabio Stoch 165–176
Nitocrellopsis rouchi sp. n., a new ameirid harpacticoid from phreatic waters in France (Copepoda: Harpacticoida: Ameiridae)
by Diana M. P. Galassi, Paola De Laurentiis & Marie-José Dole-Olivier 177–189
Phylogeny, evolution and classification of the Branchiopoda (Crustacea)
by Stefan Negrea, Nicolae Botnariuc & Henri J. Dumont 191–212

Short communication
A freeze-corer for simultaneous sampling of benthic macroinvertebrates and bed sediment from shallow streams
by M. T. R. Hill 213–215

Author Index 217
